Hannes Hergeth

Curriculum Vitae

	Current Grade – 1.7 (equivalent to GPA 3.8)
2017–2018	Erasmus Student , École Polytechnique Fédérale de Lausanne, Switzerland. Two Erasmus semesters at EPFL. 1st place in the Advanced Computer Graphics rendering competition.
2012–2017	Bachelor of Computer Science , <i>RWTH Aachen University</i> , Germany. Grade – 2.4 (equivalent to GPA 3.5), Minor in Business Administration Thesis: Extending Adaptive Progressive Photon Mapping to Participating Media Supervisor: Professor Leif Kobbelt, Grade – 1.0 (equivalent to GPA 4.0)
2009-2012	High School , <i>St. Leonhard Gymnasium</i> , Aachen, Germany. Grade – 1.6 (equivalent to US grade A), Majored in Mathematics and Computer Science
2008-2009	High School , <i>Dunstan High School</i> , Alexandra, New Zealand. International Year, Certificate of Merit for good academic performance
	Experience
2018	Research Assistant, Realistic Graphics Lab, Switzerland. Research areas: Light Transport Simulation Supervisor: Professor Wenzel Jakob.
2017	Research Intern , <i>Nvidia Advanced Rendering Center</i> , Berlin, Germany.

5-month internship at Nvidia Research working on state-of-the-art light transport algo-

2017–2019 Master of Computer Science, RWTH Aachen University, Germany.

Education

Research areas: Geometry Processing - Spline Fitting
Implementing algorithms for fitting spline surfaces to polygonal meshes.
Supervisors: Janis Born, Professor Leif Kobbelt

2013–2015 Research Assistant, Computer Graphics Group RWTH Aachen, Germany.

2016–2017 Research Assistant, Computer Graphics Group RWTH Aachen, Germany.

Supervisor: Alexander Keller

- 2013–2015 **Research Assistant**, Computer Graphics Group RWTH Aachen, Germany. Research areas: Geometry Processing Quad Meshing Designing new algorithms for multiresolution quadrangulation of triangular meshes. Supervisors: Hans-Christian Ebke, Professor Leif Kobbelt
- 2011–2012 **Software Engineer**, *Ingenieurbüro Schemmel & Partner GbR*, Aachen, Germany. Designing and implementing validation software for train schedules.

Professional Service

SIGGRAPH Student Volunteer 2015 – 2017 GCPR, VMV Student Volunteer 2015

Computer Skills

Tools Visual Studio, Eclipse, 3ds Max, Git, MATLAB, LaTeX

Technologies Parallel Computing in CUDA, Direct3D 11

Programming C++, C#, HLSL (GLSL) Languages

Projects

2012-ongoing **CudaTracerLib**: A CUDA library for rendering algorithms based on ray tracing. Includes implementations of Bidirectional Path Tracing, Volumetric Probabilistic Progressive Photon Mapping and Vertex Connection and Merging. https://github.com/hhergeth/CudaTracerLib

2010-2012 **RisenEditor** A D3D11 level editor for a well-known German PC game which enables user modifications. Based on a small engine capable of hardware tessellation, deferred shading and other state-of-the-art algorithms.

Languages

German Mother tongue

English Fluent, Cambridge English: First (FCE)

French Basic words and phrases only

Interests

Landscape photography in combination with hiking
